JWS/EAP/24/22.

13th April, 1937.

Dear Sirs,

M.V. "ATHELCHIEF".

E. I was duly favoured with your letter of the 9th instant, forwarding Drawing No.3750A, in quadruplicate, of exhaust gas boiler proposed to be manufactured by Messrs. Abbott & Co. (Newark) Ltd. for the above vessel, and I have the pleasure to inform you that this plan will be approved for a working pressure of 100 lb. per square inch, provided the boiler be constructed under the usual conditions of survey and testing.

I have to point out that the butt straps should be cut from plates and not from rolled strips.

Two copies of the plan are returned herewith.

I have also to acknowledge the receipt of the copy of your order to Messrs. Abbott & Co., covering the manufacture of this boiler, and to acquaint you that the Society's local Surveyors have been requested to give this matter the necessary attention.

I am, Dear Sirs,
Yours faithfully,

Clarkson Thimble Tube Boiler Co., Ltd.,
