orsement (1).

M.V. "ATHELCHIEF"

Shipbuilders: Messrs. *Clarkson Boilers* No.
Makers: Messrs. *Abbott & Co., (Newark) Ltd.* Boiler No.

It is submitted that the plan of *exhaust gas*
boiler merits approval for a working pressure of *100 lbs*
per sq. *inch*, provided the boiler be constructed under the
usual conditions of survey and testing.

*It should be pointed out that the butt straps are to be cut
from plates and not from rolled strips.*
