

Lloyd's Register of Shipping.

Collingwood Buildings, Newcastle-on-Tyne.

Enclosures.

28th September 1929.

Reference

The Secretary,
LONDON.

Dear Sir,

I beg to advise you that the s.s. "LUTETIAN" is having considerable alterations carried out by The Wallsend Slipway & Engineering Co. Ltd.

The Repairers' Representative is calling at the London Office on Monday morning with a plan showing proposed conversion of cross bunker into an oil fuel tank, and a plan showing modification of second deck in way of the new boilers.

Three approved plans - profile and deck, midship section and machinery casings - also a plan of profile of vessel as built, are forwarded for your information.

I am, Dear Sir,

Yours faithfully,

J. Macdonald
