-----:-

The First Special Survey No. 2 became due on this vessel in April last, and was partly held at Sydney in February, 1912 by the examination of the bunkers and the fore peak.

The Owners now state in a letter addressed to the Society's Surveyor at Sydney, that they regret they are compelled to have all their vessels surveyed by the Navigation Department, as the other States and New Zealand Laws will not accept the Society's Certificates.

The case received the consideration of the Classing Committee on the 11th instant, when it was decided to withdraw the vessel's class from the Register Book, and to insert three dots (...) in lieu thereof, indicating withdrawal of class at Owners' request.
