THIS IS TO CERTIFY that

A. S. M A N T E L L I

the undersigned Surveyor to this Society did at the request of Messrs STABILIMENTI DI DALMINE of Dalmine, attend on 27/5/27 and subsequent dates at their Works at Dalmine, for the purpose of examining and testing 7 (SEVEN) Steel seamless air receivers of the following dimensions:-

Ø 316 x 291 x 6300 m/m. (400 litres capacity)

intended for the Società Anonima FIAT of Turin.-

Test pieces were selected out of the seamless tubes, and the tubes themselves were carefully gauged for thickness and concentricity before the ends were closed in. A copy of the tensile tests results is appended.-

The air receivers were subsequently tested by hydraulic pressure to 160 kgs. and during and after test were carefully inspected and found to be, as far as could be seen, sound and free from defects:-

The air receivers were marked as follows:-
