

VESSELS BELONGING TO THE FRENCH GOVERNMENT.

In reply to an enquiry addressed to the Society's Paris Office in regard to the arrangements being made to carry out the surveys on a number of vessels belonging to the French Government, Mr. Redman writes he has been informed that the Government are going to sell most of the vessels they own, and the responsibility for dealing with the Classification requirements will rest with the purchasers. Of the vessels, to be sold, and not disposed of within a certain time (duration not specified), the Ministry, while waiting to sell at a later date, will place itself in communication with this Society in regard to the steamers classed in the Register Book, with a view to the requirements requisite surveys being held.

A list of the vessels referred to above with details of the outstanding surveys, is attached.
