8th October 1909.

Sir,

I have to acquaint you that to complete the boiler survey of the steamer "JUNO", No.484 in the Register Book, partly held at Genoa in August last, the survey of the donkey boiler requires to be held in its entirety. It is understood that the vessel is due at Torre Annunziata in about four days' time and that it may be decided to complete the survey at that port, otherwise it will receive attention when the vessel goes to Rotterdam at the end of the month for New Boilers.

I shall therefore be glad if in the event of your being requested to complete the survey you will give the case the necessary attention. You will be so good as to advise me in the event of your services not being required in the matter.

I am, Sir,

Your obedient Servant,

F. Ducoster Esq.,
Naples.
