THE SECRETARY

LONDON

Dear Sir ,

I beg to submit herewith for approval a plan of a new turbine proposed to be made by the Ateliers et Chantiers de Pephoët, Saint-Nazaire, for the S/S "MARYLAND" N° 66951 in the Register Book, which plan the builders specially request shall be considered confidential.

I enclose also a plan of the pieces in forged steel giving a table of the resistances proposed.

The original turbine of this vessel is so badly stripped and damaged that the Owners have decided to replace it by this new turbine which is intended to have the same power and revolutions as the original.

Please return these two plans for use in this office during the survey.

I am , Dear Sir ,

Yours faithfully.

Geo. A. Laing

Ваше предложение.

I am, Dear Sir,

Yours faithfully,

Please return to me the enclosed copy of the
-intention the original.

This new machine is intended to make the same work and
-bed and demand that the same be designed to reduce it by

The original machine of this vessel is so badly equip-
-ing a series of the requirements proposed.

I enclose you a plan of the vessel in lettered
-letters.

Yours faithfully,

which the machine originally intended to be constructed con-
-siderable for the S.S. "MANTON" No. 9999 in the Register Book.
The machine proposed to be made by the works of Chantiers de Rebecq

I beg to express my thanks for the plan of a new
