Survey due Screw Shaft Survey due May 1916
Special Survey No 1 due December 1916

The usual preliminary notice regarding the survey of the screw shaft was addressed to the Owners on the 16th August 1916, but no reply was received.

Mr. Helyer recently arrived in this country from Odessa, and was asked to give any information he could regarding classed vessels now in the Black Sea.

In his reply he states that the "LEDORYZ" was taken over by the Russian Government for use as a Tug at Sevastopol. She returned to Odessa early this year, but did not come under survey.
