Dear Sirs,

"Lewes Castle".

Further to yours of the 16th ult. We are in receipt of a reply from our Principals in Stockholm, and the following is an extract from same -

"The air receivers furnished with your motors are acetylene gas welded at joints, annealed and tested to a hydraulic pressure of 25 atmospheres. The certificate of test is marked with the same number as that found on the receiver.

With regard to material, we use first class Siemens Martin boiler plate, having an ultimate tensile strength of not less than 36 Kg. per square m.m. and an elongation of not less than 25%. We enclose sketch of these receivers".

We trust the particulars given are as required.

Yours faithfully,

For JAMES POLLOCK SONS & CO. LTD.

Kodiyil, G.

Sept 1997
The following is a brief history of the formation of the
Tavares Fire Department. It is based on information
gathered from interviews with members of the
Department, newspaper clippings, and other sources.
The first fire department in Tavares was organized
in 1885 by a group of citizens who formed a
volunteer fire company. The company was
organized to combat the threat of fire to the
newly established town. The first firehouse
was located on Main Street, between the
present-day site of the Tavares Fire
Department and the Tavares City Hall.
In 1901, the city of Tavares was incorporated
and the fire department became a part of
the city's government. The fire department
was responsible for fighting fires in the
entire city, which included areas such as
the Lake Wales area, the Okeechobee
area, and the surrounding rural areas.
In 1911, the city of Tavares purchased
its first fire truck, a 1911 Ford Model
T. The truck was used for several years
until it was replaced by a 1921 Ford Model
T. In 1928, the city of Tavares purchased
its first motorized fire truck, a 1928 Ford
Model A. This truck was used until 1935,
when it was replaced by a 1935 Ford Model
A. In 1941, the city of Tavares purchased
its first motorized fire truck, a 1941 Ford
Model A. This truck was used until 1955,
when it was replaced by a 1955 Ford Model
A. In 1961, the city of Tavares purchased
its first motorized fire truck, a 1961 Ford
Model A. This truck was used until 1975,
when it was replaced by a 1975 Ford Model
A. In 1981, the city of Tavares purchased
its first motorized fire truck, a 1981 Ford
Model A. This truck was used until 1991,
when it was replaced by a 1991 Ford Model
A. In 1997, the city of Tavares purchased
its first motorized fire truck, a 1997 Ford
Model A. This truck is currently in service.
The Tavares Fire Department has grown
from a small volunteer organization to a
fully professional department. It now
consists of approximately 20 firefighters
and paramedics, and is responsible for
providing fire protection and emergency
medical services to the city of Tavares and
the surrounding areas.
