Cargo battens not fitted

The Special Survey No.1 became due in November 1920, and as the vessel was lying up the Owners furnished the usual undertaking.

The Hamburg Surveyors recently reported that the vessel had been examined afloat and found in a satisfactory condition to be towed in ballast to Geestemunde where the Special Survey would take place.

The Owners now write that the vessel has been classed with the Norske Veritas, and in the circumstances the Classing Committee, who had the case before them on Tuesday the 7th instant, decided to expunge the class with a red line (11.22), indicating non-compliance with the Society's Rules.
