

SS. "Capitaine. Illiaquer"

This vessel is now completing under the supervision of the Nantes Surveyors who have forwarded a 1st Entry Report on the Machinery in order that the Certificate of Classification might be prepared.

To complete the Survey of the Machinery, the fitting of a donkey pump separate bilge suction & the fitting of easing gear to the safety valves remain to be verified

The Nantes Surveyors state that a cable will be sent upon the completion of the survey stating that the above items have been dealt with. It is submitted that as the machinery is in accordance with the approved plans and, with the exception of the items mentioned above, has been satisfactorily reported upon, a certificate might be prepared in anticipation of the completion of the survey.
