Dear Sirs,

E.

Yard No.585.  
305 Ton Tanker for National Benzole Co.

I duly received your letter of the 8th instant with further reference to the cargo pumping arrangements proposed for the above vessel, and your remarks have been noted.

In reply I have to inform you that if it is specially desired to omit the connection from the cargo oil pump to the pump room bilges, no exception would be taken to the substitution of a 2" bilge suction from an efficient hand pump, situated on deck or in an accessible position in the pump room.

I am, Dear Sirs,

Yours faithfully,

Secretary.
