Lloyd's Register of Shipping.

71, Fenchurch Street, E.C. 3.

24th April, 1939.

Dear Sirs,

Yard No. 585.
305 Ton Tanker for National Benzole Co. Ltd.

E.

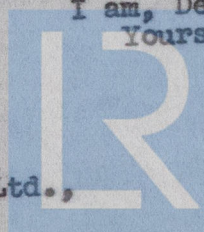

I beg to acknowledge the receipt
of the following copies of orders in respect of machinery
intended for the above vessel:-

Order No.40791 - The Atlas Diesel Co. Ltd.
Order No.40796 - Messrs. Norris, Henty & Gardners, Ltd.
Order No.40793 - Messrs. Worthington Simpson, Ltd.
Order No.40799 - Messrs. D. Brown & Sons (Huddersfield) Ltd.

With regard thereto I may say that the
copies of orders for the main and auxiliary engines have been
forwarded to the Society's Surveyors concerned, who have been
requested to give the matter the necessary attention. With
reference to the cargo pumps, however, I should explain that
the Society's Rules do not require these items to be inspected
at the Makers' Works, it being sufficient if an examination
under working conditions is carried out after fitting on board,
and in the circumstances the copies of Orders Nos.40793 and
40799 are being retained here.

I am, Dear Sirs,
Yours faithfully,

The Rowhedge Ironworks Company, Ltd.,
ROWHEDGE,
Near Colchester.

Lloyd's Register
Secretary.
