

Shipbuilders: Messrs. Roushedge Iron Works

Yard No. S. 585.

Engineers: Messrs.

Engine No.

It is submitted that ~~the plan of~~ ^{the} Messrs. Roushedge Iron Works be informed that plates to B.S.S. 15 will merit approval for be approved for the construction of fuel service tanks in this provided instance provided the plates are not flanged and the work be carried out under the usual conditions of survey and testing. The plates should however be made from Open Hearth steel and not from Bessemer Steel.

With regard to the construction of the lubricating oil tanks and ~~the~~ cooling water tank, no exception will be taken to the use of plates to B.S.S. 15.

Return

plan.
