LONDON

Dear Sir,

305 TON MOTOR TANKER.

With further reference to the oiltight cargo hatches and bunker hatches previously submitted and approved, the owners now desire that all parts of these hatches be welded in lieu of rivetted with the exception of the coaming angles, which would be rivetted to deck.

We enclose herewith one blue print of each plan T.6911 and 189/16. On which we have indicated the additional welding proposed to be carried out, and we shall be glad to receive your approval of same.

FOR THE ROWHEDGE IRONWORKS CO. LTD  
Yours faithfully,

ENC.
