

GENERAL REMARKS (State quality of workmanship, opinions as to class, &c.)

This boiler has been built under Special Survey. The materials and workmanship are good and efficient. After satisfactorily withstanding the hydraulic test it has been despatched for fitting on board.

This boiler has been fitted on board, tested under steam and safety valves set to 140 lbs, and is now respectfully submitted, as being eligible in my opinion to be classed with the notation of *LCMB 4.07* in the Register Book.

James Barclay
1.5.07.
