Steel Screw Ketch "LINDORES" No.612 in R.B. 94 tons gross
Built at Leith in 1913-10mo. Port of Registry, Pernambuco.
Owners: Companhia de Cabotagem de Pernambuco.

Class: *100A1 *LMC 10.13
10.13 Oil engine.

These vessels became due for the first Annual
survey of their oil engines in October, 1914.

The Owners now state that as these vessels are under
the Brazilian flag, and have to undergo surveys in accordance
with the regulations of the Government of that country, they
have come to the decision that it is better not to hold the
Annual Survey in question in addition.

The cases received the consideration of the
Classing Committee on the 15th instant, when it was decided
to withdraw the class of these vessels from the Register
Book, and to insert three dots (. . .) in lieu thereof,
indicating withdrawal of class at Owners' request.
