

S.S. "WATKIN" EX "KILDONAN"

This vessel is one of five of the  
"Kil" class Trawlers <sup>already claimed with this Society</sup> that are being lengthened by  
Messrs. Thornycroft & Co., and converted for service  
as cargo carrying vessels.

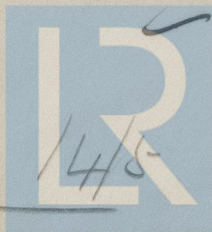

It is considered in view of the amount  
of work that has been done, and the time occupied viz:-  
from November to the present time, during which 45  
visits have been paid to the hull, that a fee of 30 guineas  
is a reasonable amount to charge for the survey of the  
hull. A further fee of 7 guineas should be charged  
for the survey of the Machinery.
