19 09.

To

Lloyd's Register of British & Foreign Shipping  
2 White Lion Court  
London; Cornhill.

Dear Sirs,

From the London County Council Steamboats  
we received a letter with a copy of your letter to  
this office, concerning the boiler of the paddle  
steamer "King Alfred".

The "King Alfred" is going now under  
steam with only 90 lbs. p. <sup>4</sup> because the competence  
will not allow any more pressure, unless the original  
certificate of the tensile strength of the plates is  
brought in.

Perhaps that You could give us the original  
official certificate of the tensile strength of the  
boiler plates, tested by the Society's surveyors  
and would we be very much obliged to You in this case.

We are, Dear Sir,

Yours faithfully,

Memeler Schiffswerft u. Maschinenfabrik  
Schneider & Co.

Lloyd's Register  
Foundation

W1531-0144

Referred to the Chief Ship Surveyor  
and the Chief Engineer Surveyor.

*al*  
JUL -6 1909

*Calde*

Also for Mr. S. A. Hill to note.

+ Mr. Mayne

It is submitted that the Owners  
be informed that the original  
certificates of the tests of the  
plates of this particular  
Boiler cannot <sup>now</sup> be verified.

As there were several  
similar Boilers being  
built at the same  
time
