

Midship 180 " " 30 watt. M.F. candle power requiring a total current of  
23 lights each of 16 C.P.  
End of Deck 63 " " 300. watt

P.S. "Yunisia"

Roll. 11128.

It is stated that to complete the survey of the electric lighting installation the latter requires to be examined under full working conditions, and that this will be done before the vessel proceeds to sea.

It is submitted that action be deferred in the meantime.
