This is a steamer of the Fleet of the Lloyd Royal Belge (Great Britain), Ltd., and became due in September, 1917, for Second Special Survey No.1, which has been deferred from time to time on account of War conditions. A general examination of the steamer took place at Antwerp in April last when the class was allowed to remain undisturbed, subject to the Special Survey and all necessary repairs being completed on the steamer's return from her then intended voyage.

The vessel is now at Antwerp, and the Surveyors have forwarded a letter from the Owners stating that the Board of Direction has decided to take the steamer away from the Society's classification.

The Classing Committee had the circumstances before them on Tuesday the 5th instant, and decided to expunge the class with a red line, (10.20), indicating non-compliance with the Rules, and the Owners have been so informed.
