

Motor Barge (Ferro-Concrete) "MOLLINETTE"

London First Entry report No. 81543.

This vessel has just been reported. She has been built by Messrs J. Pollock & Sons of Faversham, and it is desired to know on what basis the fees for survey during construction are to be charged.

It may be stated that Messrs Pollock do not appear to have signed the usual request form for special survey during construction in this case.
