Hopper Barges Nos.63 & 64.

(Per Telephone Enquiry)

The Owners state that the towlines and hawsers have not yet been supplied. They are writing to Earle's S.B. & E.Co. respecting the matter and will communicate with this office as soon as arrangements are made for the above to be placed on board. It appears that the barges have been working at Southampton for the last two or three weeks and will be there for some months.
