Sir,

I beg to inform you that I am in receipt of a letter from the owner of the steamer "OPLAND", inclosing your letter addressed to him on the 27th ult. on the inspection to be held on the watertight doors to the openings in the boiler room bulkhead.

Mr. Fredriksen writes: "According to the received letter from Lloyds Register concerning the watertight doors, these should in consequence of Lloyds survey in Shanghai be in order. Since I cannot decide when or in what port it is most convenient to let a survey be held again, it seems therefore best to me, that Lloyd requests their surveyor in Shanghai to do the examination in question when the vessel is in that port; she has now laid there for a long time."
