

# COPY.

2nd May,

5.

SHANGHAI.

998 "OPLAND". I have to inform you that I have received from the Owners the original certificate issued by you on the 24th February, and it is observed that the phrase that "ports in bulkhead fixed as requested" has been added thereto after the certificate was press copied, and this therefore does not appear on the copy forwarded with your report. I have to request that in future you will be careful to see that copies of such documents forwarded with your reports agree in every particular with the originals.
