

COPY.

1st May, 1905.

Sir,

I duly received your letter of the 26th ultimo enclosing certificate from the Society's Surveyor at Shanghai respecting the Steamer "OPLAND". In reply I have to acquaint you that an official report has been received from the Shanghai Surveyor stating that new doors have been made and fitted to the openings in the bulkhead between the coal bunker and fore hold, but it is not clear whether the Committee's requirements as to the method in which the doors were to be made watertight have been complied with and enquiry is therefore being made of the Surveyor on the subject. I shall be glad if you will be good enough to refer to my letter of the 20th January 1904 on this subject, and explain to the Owner the manner in which the doors were required to be made watertight.

I am, Sir,

Your obedient servant,

O.C.Sanne, Esq.,
CHRISTIANIA.

Secretary.
