ANSR //

Sir,

Your letters of the 28th September last and of the 1st instant on the case of the steamer "Opland" duly received, and with reference to this matter, I beg to state, that on the 4th ultimo I wrote a letter to the Owner Mr. H. Fredriksen of Sandefjord, making reference to previous correspondence on the fitting of watertight doors to the openings cut in the watertight boiler room bulkhead of his new steamer "Opland", and at the same time asking him kindly to let me know if any steps has yet been made with reference to making the openings watertight as described in previous letters, so as to render the vessel eligible for classification in the Society's Register Book, as I had been requested by the Head- office at London to bring information on this point. To this letter I have as yet had no answer.

I am Sir,

Your obedient servant

The Secretary

London.
