9.25-12 T.S. 1.11.

vey due *Special Survey No. 3 due February 1913.*
Screw Shaft Survey due January 1913.

The Owners state this vessel is permanently stationed at Lagos, West Coast of Africa, and they ask, as has been the practice in previous years, that the requisite survey may be carried out by their Mr. Hartenstein, or his representative.

It may be added that the Special Survey No. 2 of this vessel was held at Lagos in 1909 by Mr. Schwellnus, the Owners' Surveyor, which course was approved by the Committee.

Submitted the owners should be informed that such an important Survey as S.S. No. 3 must be held by one of the Society's own surveyors and they should be requested to bring the vessel to a port where a surveyor is stationed if they desire the vessel's classification to be maintained.
