# Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

2 ENCLOSURES.

15th June, 1921.

Dear Sir,

3. With reference to Baltimore reports No. 3100 on the hull, machinery and main boilers of the s.s. "AGWIPOND", I have to enclose herewith the certificates of classification on the vessel, and in view of the last visit to the machinery having been paid on the 26th March this date has been entered on the machinery certificate, which it is concluded will be in order.

I may add that it is assumed the Donkey Boiler fitted on board the vessel has been made in accordance with the plan approved for a working pressure of 125 lb. per square inch, and the certificates are sent herewith on this understanding.

No report, however, on the Donkey Boiler has been received in this Office, and I shall be glad if you will arrange for this document to be forwarded immediately in order that it may be attached to the other reports.

I am, Dear Sir,

Yours faithfully,

Assistant to the Secretary.

The Secretary,  
NEW YORK.
