ENGINEER SURVEYOR

Racine, 2

NTES

LOYDS REGISTER.

LONDON

REC'D 17 JUL 1913

ANS

18

Nantes, 15th July

1913

The Secretary
London

I beg to forward herewith first entry
port no. 684 on the S.S. "Saint Louis"
building by the Ateliers & Chantiers de
Lorient at St. Nazaire, yard number 212.
This vessel is not yet quite completed, but
the reports are now forwarded in view of
request from the builders that they
may have a certificate of classification
put before the Government Commission
which they expect to ask to attend upon
the 22nd instant.

A pencil cross has been marked upon each
part where incomplete, and, upon the
completion of the following items, I will
telegraph to the Committee to the effect
that all items mentioned in this letter
are then in order —

Hull.

Survey date.

Image.

State of decks.

Completion of test of after peak tanks.

State of bulkheads.

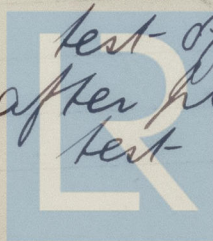

Master.

Lawyers & warps.

Test of gutterways.

Test of after peak tanks.

Test of pumps.

Lloyd's Register
Foundation

Test of Wt. door-
Test of windlass-

Test of steering gear.
Fees-

Dates & number of later visits-

Electric Light-

Completion of wiring-

Trial.

Machinery-

Date of last survey-

Tonnage.

Master-

Dates of later visits-

Completion of pumping.

Auxiliary boiler-

Tonnage-

Master-

The freeboard marking has not yet been
verified, but will probably be so to-morrow,
upon which the report will be promptly
forwarded. The certificates are still in my
possession.

The approved plans, as her list appended,
are forwarded herewith. It will not be
necessary to return them for completion of
the sister vessel, with the exception of 2
iron steering gear plans, as there are
duplicate plans in this office.

I am, Sir,

Your obedient servant

C. Demarest
