W. H. Harnish  
July 31-18

The Secretary  
Dear Sir:

Have seen briefs "Darkness" "Bluesky"  
and "Avalanche" and taken particulars from cables which I have  
inserted in Reports of "Darkness" and "Bluesky". I enclose particulars of  
"Avalanche" (the report of which vessel was not in those returned) viz

0 66675-Test 17-16-0 Acid Link. The initials on each chain are L.P.H.N.

Other vessels are not working from either Liverpool or Harwich.

None of 23<sup>rd</sup> but I said there were only two anchors on brief "Daylight" - not

fellows thought it must have been <sup>but</sup> "Darkness". I find there is an extra one on this vessel  
but it is a small one and not a certificated anchor. Yours faithfully  
Five Reports returned herewith.

W. E. Harnish
