The Secretary,
Lloyd's Register of Shipping,
342, Argyle Street,
GLASGOW.

Dear Sir,

SS. NO. 3.

We refer to your letter of 22nd August 1916 - addressed from your London Office, noting that a vessel of this length would require seven bulkheads to the upper deck.

As, however, one intermediate bulkhead and two intermediate tweendeck bulkheads would greatly interfere with the special line of trade in which this vessel will be employed, we would ask the Society's sanction to have these bulkheads omitted.

Yours faithfully,

LLOYD ROYAL BELGE (GRT.BRITAIN) LTD

James Baxter

Shipyard Secretary.
