The tail-shaft became due for survey in October,
and the boiler survey became due in November last. The Riga
Surveyor recently stated that he had been informed by the
Owner that it was not intended to continue the vessel's
classification.

A communication was addressed to the Owner on the
subject, but no reply has been received, and upon the case
being submitted to the Classing Committee on the 13th instant
it was decided to withdraw the vessel's class from the Register
Book, and to insert three dots (. . .) in lieu thereof,
indicating withdrawal of class at Owner's request.
