6th May, 1915

Dear Sir,

With reference to the classification in the Society's Register Book of your steam trawler "SAPAD", I beg to acquaint you that this vessel became due in October last for the Special Survey of the screw shaft, which requires to be drawn in for that purpose, also that the survey of the boiler became due in November.

The Society's Surveyor at Riga reports however that upon consulting you in the matter he learns that you do not propose to continue this vessel's classification, and in the circumstances I shall be glad to be favoured with a line from you indicating whether it is your intention to submit the boiler and screw shaft for the necessary surveys, so as to entitle the vessel to retain her class.

I am, Dear Sir,

Yours faithfully,

Secretary.

C. J. Spahde, Esq.,
