

WOOD SC. "ICEBLINK".

This vessel was built at Buckie and the boiler was made at Aberdeen under the special survey of the Surveyors of this Society.

The Engines were made and installed on board under the supervision of the British Corporation and the Certificate issued by them is attached hereto.

As it is provided in the Committee's circular letter dated 16th March 1918, that in such cases this Society will issue the machinery certificate with the notation of LMC with date in red, it is submitted this vessel is eligible for the record of LMC 2.20.
