# Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

12th August, 1929.

Dear Sirs,

S. I have to acquaint you that I am advised by the Society's Surveyors at Middlesbrough that the new motor ship "CALGAROLITE" (Messrs. Furness Shipbuilding Co's No. 131) is fitted with two Clarkson Waste Heat Boilers, and I shall be glad if you will let me know whether these boilers were built under Special Survey. If so, you will be good enough to furnish me with the numbers of your reports on the case.

I am, Dear Sirs,

Yours faithfully,

Clerk to the  
Classification Committee.

The Surveyors.

GRIMSBY.
