

in book

A representative of Messrs. Clarkson Boiler Company (Central 2882) phoned this morning to say that two of their type of boilers are being constructed by Messrs. Davy Bros. Ltd., at the Park Iron Works, Sheffield, for which the inspection of this Society is desired.

Messrs. Clarkson Boiler Co., stated that they understood that plans of the boilers in question were being forwarded to this Office by Messrs. Davy Bros., and the former Firm request that one of the Society's Surveyors should proceed to the works of Messrs. Davy Bros., on Tuesday next for the purpose of testing and inspecting these boilers.

Messrs. Clarkson Boiler Co., were informed that up to the moment no plans had been received from Messrs. Davy Bros.

They were also informed that a phone message would be sent them later this morning informing them as to what steps would be taken in the matter.

8.9.28.

*N.B. Letter enclosing plans above blrs.
now recd from Davy Bros
10.15 am*

Messrs. Clarkson Boiler Co., informed by phone that the matter would be taken up direct with Messrs. Davy Bros., that it was noted that these boilers are already constructed, and that the case would have to receive the approval of the Committee. The Firm were informed that they would be advised by midday Monday whether the plans can be approved.
