Ans'd

Messrs The Surveyors for
Lloyds Register of Shipping,
GREENOCK.

Dear Sirs,

"Corinaldo".

With reference to your account for fees in connection with the survey and classification of this vessel which have been charged on the 1921 scale (or about double the 1920 cost) we shall be glad if you will submit to your Committee the view of ourselves and the Owners, that under the circumstances special consideration should be given to the case of this vessel which was launched and the main work of survey completed in August 1920. Had it not been that the additional work/

W160-0058 (1/2)

work of insulating the holds was carried out, the vessel would have been completed a few weeks later and your fees charged on the 1920 scale.

Yours truly,
SCOTT'S SHIPBUILDING & ENGINEERING COMPANY,
LIMITED.

W. Doster

Commercial Manager.
