THE PRINCIPAL SURVEYOR

Lloyd's Register of Shipping,

17 Battery Place,

New York.

February 7, 1938

Dear Sir:

Bethlehem 4327

I beg to enclose herewith for the consideration of the Committee a plan of Switchboard prepared for the above vessel.

The General Electric Co. pressed for an approval by the 10th February, and I therefore took the responsibility of doing so.

I beg leave to state for the information of the Committee that the arrangements as shewn, in my opinion, are good and safe in accordance with the best American practices, and merit the favorable consideration of the Committee.

I should, however, be glad to receive your instructions in the matter. If any criticisms or amendments are necessary, an advice by cable would be esteemed a favor.

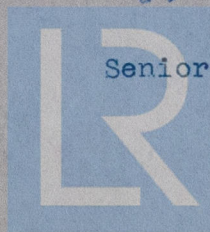

I am, Dear Sir,

Yours faithfully,

John S. Heck

Senior Engineer Surveyor.

The Secretary,
LONDON.
