-:-----:-

The Boiler Survey became due in July, 1918.

In July 1918 the Kobe Surveyor stated that the Owners had decided to withdraw the vessel from classification as she was to be used entirely in coasting service, but he hoped to be able to persuade the Owners to modify this decision.

The Surveyor now writes, however, that the decision has been confirmed, and the Classing Committee, who had the case before them on Friday, 6th instant, decided to withdraw the vessel's class from the Register Book and to insert three dots (...) in lieu thereof, indicating withdrawal of class at Owners' request.
