Tug & Cargo Launch "TOMO".

28
It is submitted Messrs. Grace Brothers be informed that before the figure 1. for equipment can be assigned to this vessel it will be necessary for the anchors and chain cables to be inspected and verified with the certificates when they are placed on board the vessel.

They should be further informed that Lloyd's Agent at Valparaiso is being requested to communicate with Messrs. W.R. Grace & Co. at that port regarding this matter, and ~~request them~~ to arrange for a Surveyor to be appointed to carry out this inspection and verification when it is ascertained where the vessel is and where the anchors and chains will be placed onboard.

They should be informed that the boiler certificate should be forwarded to the Owners, and the certificates for the anchors and chain cables should be produced for the information of the Surveyor when inspecting and verifying them on board the vessel.

Lloyd's Agent at Valparaiso should be informed that it is necessary for the anchors and chain cables to be inspected and verified with the certificates when placed on board the vessel, and they should be requested to place themselves in communication with Messrs. W.R. Grace & Co. at that port so that they may arrange for the appointment of a Surveyor to carry out this inspection. ^{if it is not held at Valparaiso} Full particulars should be forwarded to this Office of this equipment when placed on board.

Messrs. W. R. Grace & Co. will be able to inform them where the vessel is and where the anchors and chains will be placed on board.

S. A. Hill note

ite Upo If the Survey should be held at Valparaiso
it should be carried out by the Society's Surveyor
at that port.
