

of Ship Surveyor 18.5.14

Received from Chief Ship Surveyor _____

NAME Wood Lug Cargo Launch "Lofo" Rpt. Ply No. 5535

Works of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

Equipment

This vessel was recently classed A— "For Service between Coquimbo and Kruzgrande".

The Plymouth Surveyor now reports that he has made a preliminary examination of the equipment, which is intended to be placed on board this vessel.

The cable to be supplied is as follows:— 242 feet (40-1/3 fathoms) of proper size, weight and test and 92 feet (15-1/3 fathoms) of non-statutory test. The length of cable approved is 60 fathoms.

It will be observed that the cable supplied is 26 feet or 4-1/3 fathoms shorter than the length approved. for the consideration of the Committee whether

It is submitted the cable might be approved in this instance and action deferred until the cable has been placed on board and examined.
