

Steel screw steam trawlers "ULVERSTON" and "VESTA", building by Messrs. Cochrane & Sons, Selby, for Messrs. Letten Bros., of Grimsby, with a view to class 100A1, "Steam Trawler".

Equipment numeral 5307.

The Owners have supplied the equipment to these vessels in accordance with the grade, the upper limit of which is 5300, being under the impression that the equipment so supplied was in accordance with the Rules. They state that in their opinion this outfit will be sufficient to meet the requirements of the vessels, and they therefore request that the Committee will approve the same.

It is submitted that in view of the equipment numeral of the vessels being so slightly over the grade, the equipment supplied might, in this instance, be approved, as desired by the Owners.
