No. 115

13th February 1911.

My dear Mr. Garelli,

Very many thanks for your letter of the 25th ultimo and for the explanation of the matter so kindly give by you. While very much regretting the situation which has arisen it is quite evident that as things stand we can do nothing further to press forward the advantages of our classification.

Whenever you may be in London if you can manage to spare time to look in here and have a chat I shall be delighted to see you.

With kindest regards,

Believe me,

Yours very truly,

Ing. Fabio Garelli,
Pegli,
Italy.
