

~~REMAIN~~

Steel Twin Screw Steamer "VERONA"; No.222 in RB; 8240 tons gross.

Built at Belfast in 1908-5mo; Owners, Soc.di Nav.a Vap. Italia.

Port of Registry, Genoa; Classed *100A1 *LM05,08
Spar dk.
10,09

The Belfast Surveyors stated in December last that this vessel had arrived at that port with extensive damage to her main engines. The Captain informed them, however, that their services were not required, as the Owners intended to drop the class.

The Genoa Surveyors recently forwarded a copy of a letter they had received from the Owners, in which they stated that as they were obliged to have their vessels classed with the Registro Nazionale, they had decided to withdraw this steamer from classification in the Society's Register.

The case was before the Classing Committee on the 13th instant, when it was decided to give instructions for the vessel's character to be withdrawn from the Register Book, and for three dots (...) to be inserted in lieu thereof, indicating withdrawal of class at Owners' request.
