Report 33960*

GLASGOW.

18th. June, 1914.

William Gordon Minchin

Messrs. Campbell & Calderwood attend at their Soho Engine Works, Paisley, for the purpose of examining during construction a hauling vertical engine having cylinders of 6" x 6" with a stroke of 36" and designated No. 919.

This engine was examined during its construction and the material was tested in accordance with the Rules of this Society and in the opinion of the undersigned is of good material and workmanship.

This engine is intended to be fitted on board a Ferry Boat on Lake Windermere.
