

# Lloyd's Register of Shipping,

342, Argyle Street, Glasgow, c.2.

3rd January, 1929.

Sir,

In reply to London letter (S) dated 29th ult.  
concerning the first entry report No. 48696 on the Steamer  
"ESS OF RICHMOND", I have to say that the butts of the  
side and topside plating ~~is~~<sup>are made</sup> as approved, but the butts of  
Foremenade Deck Sheer and Q strakes are quadruple riveted with  
rivets spaced 4" apart, not treble riveted as inadvertently  
stated on the report.

I am, Dear Sir,

Yours faithfully,

Secretary,

GLASGOW.
