Name: **s.s. "AKENSIDE"**

QUESTION

ANSWER

Date:— **14th September, 1954.**

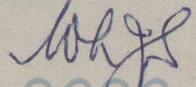

With reference to my letter of the 18th September last, I shall be glad to learn what arrangements are proposed to carry out the Special Survey. I would also refer you to your report No. 119838, and point out that the thrust shaft and the main engine LP piston require to be re-examined by the end of next month.

The Owner's Representatives have advised us that it is the Owner's intention to stop this vessel about the end of the month when a decision will probably be taken as to her disposal. It is not known at present whether she will be sold for breaking up or transferred to other ownership to remain trading.

You will observe that the Boiler Survey becomes due at the end of next month.

THE SURVEYORS,

per:-

I take this opportunity to remind you that the Load Line Certificate will expire at the end of the present month.
