Chief Engineer Surveyor.....

Received from Chief Engineer Surveyor.....

NAME

"ALLIAN"

REPORT

Hbg.

No. 2337.

of the Chief Engineer Surveyor are desired on this case for the consideration of the Classing Committee.

the endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and so to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points wanted in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

SPECIAL SURVEY OF ENGINES AND/OR BOILERS PARTLY HELD.

due 4.53

, partly held

now and vessel examined on floating dock and satisfactory General Examination of machinery carried out.

~~Further advanced~~ and the following repairs effected (due to wear and tear

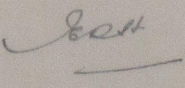

Some condenser tubes re-packed and others plugged. Some screw renewals in the main boiler and port and starboard combustion ers found to be buckled. The Surveyor recommends they be specially ed and dealt with and the electrically welded repair to the main front end plate examined before the end of 12.53.

It is proposed to complete the survey at the first convenient opportunity.

It is submitted that this proposal merits approval and the vessel is gible to remain as classed, and WILL BE eligible for the record

when the survey has been completed, subject as recommended and the proposal to postpone the Special Survey until 12.53

~~The following remains to be done to complete the Survey~~ merits favourable consideration.

10.4.53.
